Comments	We were stopped from the day program site over the step ladder that he uses for support along with the support of the staff. when he slipped off and fell to the ground staff hurriedly to catch him and provide cushion support and he landed his left knee. subsequent first aid treatment was given by washing the affected area. Neoprene from the first aid kit was applied before placing bandage on it. the nurse therapist who staff instructed the first-aid training and bleeding and to call back if off the site are noticed. The procedure was also notified of the incident at the time of this report. ER is in the living room teaching to each staff.
